# Standard of Quality

- Manufacturer of quality liners since 1971, over 40 years of quality.
- Kafko offers premium pool liners designed to withstand harsh environments.
- Kafko vinyl is manufactured with bleach resistant inks and UV inhibitors to protect against fading and sun damage.
- Liners are equipped with algae inhibitors, which aid normal sanitizers to protect Kafko liners for a long life.
- Available in 20, 30 and 40 gauge.
- Kafko True-Fit liners are manufactured under strict Quality Control Procedures to ensure exact fit.
- Available in a wide array of styles and custom designed shapes.
- New or replacement liners are available; restyle your backyard!

All Kafko prints are copyright and industrial patent design protected.  
 Colour of material may vary. Ask to see an actual sample.  
 Seam lines are more visible on patterns that are printed on white base material.  
 Certain patterns may be exclusive to geographic locations.  
 Visit our Vinyl Visualizer at [www.kafko.com](http://www.kafko.com) to see how your pattern will look in water and for a complete description of all our product offerings.

## TruTile Ceramic Border

TruTile features a patented system that incorporates a vinyl liner wall and floor along with a 6" ceramic perimeter tile border.

- Works in any polymer, wood and steel in-ground swimming pool
- Keep the soft touch and simple care of vinyl, and add the beauty of ceramic tile
- Unlimited choice of 6" ceramic tile designs to choose from
- Can be used with any of our vinyl over Wedding Cake Steps including the NEW Radius models

## Wedding Cake Step

- Adds pizzazz to old and new pools
- Raised tread pattern for slip resistant finish
- Revolutionary clip system to secure liner to step for snug fit
- Easy to install, no need for concrete forms and messy concrete
- Molded shell makes for consistent liner installation and fit
- Totally non-corrosive, non-abrasive and non-stressful
- Fits all vinyl liner pools – polymer, steel, wood, concrete and fibreglass

### Available in 8 models:

- 180° Straight
- 90° Square Corner
- 6" Radius Corner
- 2' Radius Corner
- 8'-6" Radius
- 9' Radius
- 10' Radius
- 11' Radius

# Superspan™ Dome

When you demand the best pool enclosure available at the best price available, the **Superspan Dome** qualifies on both counts. It's engineered to enable swimming straight through winter in even the coldest areas of the country, without the expense of a permanent structure. It's supported entirely by air provided by a small blower which uses minimal power.

## Available in 19 Colours:

- Black
- Dark Grey
- Light Grey
- Brown
- Purple
- Lavender
- Navy Blue
- Royal Blue
- Aqua
- Light Green
- Forest Green
- Avocado
- Yellow
- Orange
- Red
- Burgundy

## Standard Colours:

- White
- Tan
- Light Blue

Swim All Year Round!

# + Pool Safety

Awareness and understanding of water safety practices can reduce the risk of serious injury. Following safe water tips are essential for you and your family to have years of enjoying your pool.

## Playing it smart makes sense.

**IMPORTANT:** A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These devices include:

- Safety ropes, which should remain in place at all times
- “No Diving” signs which are provided with all Kafko pools and which should be installed in accordance with Kafko instructions, on the coping or liner, where they can be clearly visible
- An area sign which is provided with all Kafko pools and must be permanently and conspicuously affixed in the pool area where all users can see it
- Necessary means of exit and entry into the pool
- Fencing with a self latching gate, and other barriers that can assist parents in preventing unsupervised access to the pool by children
- Approved drain covers and other devices to protect against suction entrapment
- Minimum required inlets and returns to ensure proper water circulation
- Appropriate in-pool lighting if the pool will be used after dark

All of these devices should be installed in accordance with Kafko instructions, ANSI/NSPI or ANSI/APSP standards, as well as State and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer's specifications and ANSI/NSPI or ANSI/APSP standards. If the pool is labelled by us as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also ensure:

- That their pool is never used unless there is adequate supervision
- That their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component
- That ALL CHILDREN using their pool are supervised constantly
- That anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgement does not use the pool
- That their pool is protected by appropriate barriers to unsupervised entry including fencing with self latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool. We must insist that you read each item carefully and follow its instructions. These are:

- Pool Owners Safety Handbook
- “Notice” Card
- APSP “Sensible Way” Book
- Vinyl Swimming Pool Liner-Warranty
- “Children Aren't Waterproof” Book
- Plaque
- “No Diving” Labels

Make sure your builder supplies you with all of the safety information that accompanies your pool and installs the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.

For more information with regard to the ANSI/NSPI or ANSI/APSP standards or for other general information contact:
